- **DevOps**: Docker & Kubernetes (In Progress / Learning) .

LANGUAGES

- English (Intermediate)
- Urdu (Fluent)

PROFESSIONAL SUMMARY

Full-stack developer specializing in Agentic AI and modern web technologies, with hands-on experience in building high-performance E-commerce platforms and AI-driven applications. Also interning at Aykays Agency and pursuing advanced AI studies at GIAIC.

I am currently working as a Frontend Developer & Team Collaborator (Independent, January 2026 – Present), collaborating with a dedicated team of developers to acquire, build, and deliver high-performance frontend web projects for clients.

Specializing in Agentic AI frameworks, active workflows with OpenAI SDK, MCP Servers, and currently exploring Open Claws for advanced AI agents. My hands-on skills are backed by multiple Hackathons where I built complex AI Humanoid systems and real-time automation tools.

- Digital FTE (Hackathon 5): Multi-channel system (WhatsApp, Gmail) using OpenAI SDK & Kafka.
- My AI Employee (Hackathon 0): Workflow automation via Gmail, LinkedIn, & Odoo.
- Physical AI & RAG Chatbot: Interactive AI system using Retrieval Augmented Generation for contextual learning and environmental interaction.
- AI-Powered CLI Todo App (Hackathon 2): Advanced task manager with AI Assistant integration and Natural Language Chatbot for text-based task entries and local data persistence.

WORK EXPERIENCE

JAN 2026 - MAR 2026

Frontend Developer Intern | Aykays Agency

- Built a high-performance E-Commerce Storefront using React, Firebase, and Stripe.
- Managed real-time data, secure authentication, and fully responsive UI/UX design.
- Focused on deploying scalable web solutions using modern tech stacks.

Production & Documentation | Hilton Pharma MAR 2011 - SEP 2022

- Managed machine operations, team supervision, and strict technical documentation over 11+ years.

ONGOING EDUCATION

FEB 2024 - ONGOING

Artificial Intelligence, Web 3.0, and Metaverse (Agentic AI)

- At the Governor House in Karachi, we are acquiring the latest skills and technologies related to AI.
